How Brand Loyalty Can Boost Your Bottom Line

Claritas Small Business Insights can help you find and win loyal customers.

Consumer Loyalty Is An Expression Of Trust

Building brand loyalty is the primary objective for virtually every company. Research shows that loyal, emotionally connected customers will buy more from you and pay more for your products.

In fact, emotionally connected customers will spend up to 2X or more with retailers than simply “satisfied” customers. And they have a 306% higher lifetime value. They also recommend brands at a much higher rate – 71% versus 45%.

But which customers are the most likely to become loyal to your brand? And how can you best leverage this loyalty? Those are exactly the kind of questions Claritas can help you answer.

Clairitas Delivers Customer Data You Can Count On

Claritas has nearly 50 years of experience in providing its clients with unparalleled insight into American consumers and businesses. Its insight into brand loyalty has been developed based on in-depth research from multiple sources, including the Claritas American Marketscape Datastream 2019 series, the Claritas Consumer Spending Dynamix 2019 series, the Claritas Small Business Behavior Track survey 2018 and the Nielsen Scarborough National Survey 2018/1-2.

Together, these sources represent insights from more than 215,000 consumers and businesses. Claritas also conducts customized research for clients who want to dig deeper into customer loyalty as they seek to identify and engage their best customers.

Willingness to pay more for a trusted product or service is the ultimate indicator of loyalty.

Clairitas Helps You Turn Customer Loyalty into Profits by:

- Putting the right products in front of the right customers - Customize your marketing campaigns based on which customers are willing to pay more for specific products or services
- Targeting customers that represent a greater lifetime value for your company - Discover which customers are likely to spend more with your company in the long-term

Small businesses in the accommodation, construction and technology industries are more likely to be loyal, while those in the accounting, legal, healthcare and real estate professions report less loyalty.
Insights Into: Small Business Loyalty

Smaller Businesses are Less Likely to be Loyal than Larger (11-50 Employees) Small Businesses

“*If a new product or service is offered by a supplier that my company trusts, we’ll purchase it even if it is more expensive than other similar products or services*”

Index
